

RAMSEY MODEL MX-200 R FRONT-END WINCH

For CJ-5 Jeep

(MODEL RX-200 R WINCH KIT IS SIMILAR AND FITS CJ-2A, CJ-3A, or CJ-3B Jeep. See Page 7.)

Drum accommodates 150 ft. of
5/16" line with ample working
room.

WINCH SPECIFICATIONS:
Safe Working Load 6,000 lbs.
Gear Ratio 60 to 1
Weight of Winch only 60 lbs.

Flexible exhaust pipe over-comes drive shaft interference. Standard exhaust pipe can be used by bending.

Power take-off with chain drive case attached, is easily installed in the usual manner.

Shaft extends from back of chain drive case for driving other units on rear of vehicle.

Universal joint

Drive shaft does not interfere with steering gear.

Center support bearing prevents drive shaft from "whipping" at certain speeds.

Universal joint

Chain drive case and power take-off are shipped as a complete unit. Chain case runs in oil which assures long sprocket and chain life, plus trouble-free service.
